

HORNETS...

BEFORE YOU DROP A CLASS

— *We are here to help!* —

We understand that many students are facing challenges during this time and for reasons beyond their control. Students enrolled for the Spring 2020 semester are encouraged to remain in their classes. The faculty, staff, and administration at Fullerton College are [here to support you](#).

— *One Hive, One Family!* —

If you are thinking about withdrawing from a class, remember that it may affect your Educational Plan, your Financial Aid, and potentially your transfer options. Fullerton College is working with the State of California, University partners, and the U.S. Department of Education to find solutions that will help you.
